Re: Plan Amendment No. 02-305

Dear Commissioners,

An important part of our Southern California lifestyle has always been the availability of outdoor recreation areas and trails.

As an avid equestrian and hiker, I use our local trail system constantly. Trail access is a matter of vital importance to me and everyone who uses these trails.

We need to continue to connect to our City Trail System to local trails for greater access and continuity. I believe our trails within the Santa Susana Mountains Trails Master Plan should be connected through easements and maintained in perpetuity.

Therefore, I fully support Plan Amendment No. 02-305 for future trail connections.

I also believe to not include this Amendment in the Master Plan would negatively impact the overall quality of life not just for equestrians, but for everyone who calls this part of California "home".

I ask that you please do NOT remove Plan Amendment No. 02-305 from the General Plan Update.

Thank you

Barbara H. Nielsen
